DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2-10, 14, and 17-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Eckel et al. 5,672,645.
3. Eckel et al disclose polycarbonate, graft copolymer and two different phosphates in the Abstract, phosphate formulations in column 2, lines 18-55 and from column 7, line 46, to column 8, line 58, polycarbonate structures in column 3, lines 1-60, graft copolymers from column 5, line 24 to column 5, line 63, graft copolymer particle sizes in column 6, lines 19-20, fluorinated polyolefins from column 8, line 61 to column 9, line 60. For auxiliary additives, molding process and articles, see from column 9, line 61 to column 10, line 51. See also the Examples and claims. Applicants' claims are not novel.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1714

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 2-10, 14 and 17-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Eckel et al. 5,672,645, in view of Kakegawa et al. 5,455,292, Lee et al. 5,674,924 or Cheil Industries EP 0 731 140, further in view of Wittman et al. 5,061,745, Fuhr et al. 5,157,065, Podszun et al. 5,733,957 or Serini et al. 4,172,4,172,103.

7. All references have been discussed previously. The rejection is maintained similarly to the one in Paper #14, since Eckel et al. describe the claimed polycarbonate structure.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is 703-308-2460. The examiner can normally be reached on Tuesday-Friday 7:00 a.m.-5:30 p.m.
